SUMMARY

- Proven leader who specializes in creating and mentoring teams to deliver at very high levels.
- Near 100% track record of on-time, on-budget project delivery.
- 2 years of AWS development experience including containerized deployments and Infrastructure as code.
- Seasoned Public Speaker with dozens of presentations at conferences and user groups.

Senior Technical Manager

2023–2024

OCLC

-
- Managed and led developer teams for OCLC products including: CONTENTdm, Digital Collection Gateway, Digital Archive, Meridian, and Worldcat Entities.
 - Formed a new 6 developer OCLC internal team from scratch, including recruiting and onboarding, to take over development for CONTENTdm.
 - Led Redhat modernization efforts to upgrade 240 legacy servers across 3 applications and 20 application layers in only 4 months.

AppDev Practice Area Manager

2010–2023

Fusion Alliance

-
- Managed a team of 20-50 consultants including recruiting, sales support, technical interviews, mentoring, training, performance evaluations, and compensation reviews with management allocation of 10-20% of my job duties.
 - Architected the Engage reference framework that Fusion Alliance used on 10+ client engagements with 100% on-time delivery.
 - Developed a Federated Single Sign On (SSO) framework using Windows Identity Foundation that was leveraged by 4 large scale projects.
 - Led development of multiple greenfield, cloud-native, \$1 million+ projects including a Smart home solution for Centerpoint Energy, a debt management system for Apprisen Financial, and a claims processing system for Safelite AutoGlass.
 - Led multiple engagements with Primary Financial to modernize and enhance the Azure based SimpliCD application that handles \$6-7 billion/year in asset trades.
 - Developed a payments processor for Garretson Resolution Group that paid out > \$100 billion in class action lawsuit claims in the first year. The payments processor exceeded performance requirements by 90% and had zero reported production defects or issues in the first year.

Manager/Lead Application Developer

2004–2010

CorpCommGroup, Inc

-
- Developed public websites, intranet, and extranet applications for over 50 clients across many industry verticals.
 - Led the company to back-to-back record quarters within 1 year of promotion to management including growing the team size by 300%.
 - Created the company's first product which allowed for faster delivery of common projects while achieving 90%+ margins.
